

Steps to T Bar installation

- The following T Bar installation steps are intended to assist operators to correctly install the Ballantyne Safety T Bar.
- The following steps are not intended to be, or to be any form of substitute for, training in the use of temporary roof safety devices in any way.
- For more information on temporary roof safety training, please contact Ballantyne Safety.

step 1

SIT T BAR ON TOP CORRUGATION OF ROOFING IRON

step 2

ENSURE BOTTOM TAB IS UNDER TOP
CORRUGATION OF ROOFING IRON

step 3

ENSURE WING NUT IS TIGHTENED TO SECURE BOTTOM TAB

step 4

ENSURE L BOLT IS TIGHTENED ONTO ROOFING IRON TO CLAMP T BAR TO ROOFING IRON

ADDED SECURITY MAY BE ACHIEVED BY USING A ROOF SCREW THROUGH THE SLOTTED SECTION IN FRONT OF THE L BOLT
